MESSAGE FROM THE PRINCIPAL

June — A Creative Summer Break!

Our little Jaipurians may have taken a break from classrooms, but the creativity never stopped! This special June edition celebrates all the wonderful art, craft, AI explorations and fun activities our children enjoyed during summer. Every doodle, every masterpiece — all of it is a testament to the boundless imagination that lives in every child's heart.

FATHER'S DAY — OUR HEROES, OUR STRENGTH!

Dads are superheroes without capes — and on **Father's Day**, our little Jaipurians celebrated their real-life heroes with joy, pride and lots of love! Families struck their best "Super Dad" poses, made heartfelt cards and shared the most precious gift of all — time together. **Happy Father's Day to every Super Dad out there!**

01

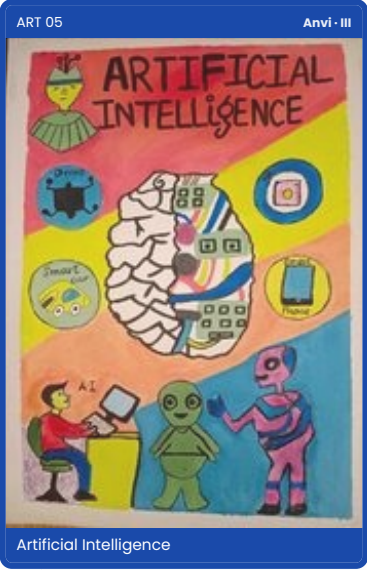

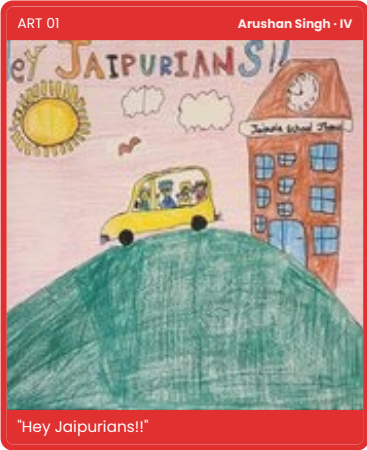

ART CORNER — COLOURS SPEAK LOUDER THAN WORDS!

Little Jaipurians poured their hearts onto canvas this summer! From watercolour wonders to finger-painting magic — every stroke told a story. Our young artists explored landscapes, portraits, abstract art and even copied their favourite cartoon characters!

"Painting is just like fighting — you need courage, colour and a lot of heart! Every brushstroke is a superpower!"

02

CRAFT CORNER — BUILD IT, MAKE IT, LOVE IT!

Scissors, glue, paper, clay — when you combine them with a child's imagination, pure magic happens! Our little makers crafted beautiful collages, origami animals, clay sculptures and decorated photo frames that now sit proudly in their homes. Every creation is a trophy!

"Action — Shin! Making crafts is WAY more fun than homework! Look what I made — Mama says it looks like a potato. I think it's a ROCKET! "

Adhiraj · Ashvik · Harleen · Arushan — Crafting with Heart, Creating with Soul!

03 A.I. ART — THE FUTURE IS CREATIVE!

Welcome to the future, little innovators! Our students explored the exciting world of Artificial Intelligence Art — typing prompts, watching magic happen and learning that technology is a tool for creativity. From AI-generated landscapes to cartoon reimaginings — the possibilities are infinite! ∞

"I have a gadget for EVERYTHING — but AI Art? Even my 4D pocket is amazed! Type a word and a whole world appears!"
